INTERNATIONAL DENTIST CENTRAL

Hey there Kevin,

This month continues to be busy as a lot of programs are having their interviews.

Did you get an invitation? We wish you luck and hope you are prepared for it. That said, we are happy to share another workshop replay that we think could be helpful to you this season. It is:

"*Ethical Interview Questions 101*"

By now, you already know that each program has a reputation to live up to and they would want to find students that are ready to act according to it. They consider students with a strong sense of ethics as their assets.

For anyone preparing for their upcoming interview, a solid understanding of ethical questions is an absolute must. This is why in this workshop, I went over the why's

and the how's of responding to ethical questions and provided some great examples.

Don't miss this replay, you can watch it through the link below:

Watch the Replay

(This replay will be available from today, **20th of September until the 22nd of September, noon Pacific time**.)

Get ready to ace your interviews and wish you all the best of luck!

~ Kevin
